## DETAILED ACTION

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 7/31/03 has been entered.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 3-23 and 26-31 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims are indefinite and or incomplete because it is not clear how the coatings, films, layers or residues can be subjected to a post rinse treatment when these coatings, films, layers or residues have been removed in the previous steps.

The claims as amended are further indefinite because it is not clear what is referenced as "reacted and unreacted organic material"

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Art Unit: 1746

5. Claims 3-23 and 26-31 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The claims as amended require conducting the pre-rinse treatment prior to step (1). This is not supported by the original disclosure.

The original disclosure (page 18 lines 1-5) requires conducting the pre-rinse treatment after the sulfur trioxide treatment.

This deficiency also makes the claims indefinite because it is not clear now when the step (b) is conducted. Thereby the claims are also rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention for the reason indicated above.

***Response to Amendment***

6. The amendment filed 7/31/03 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: the requirement to conduct the pre-rinse treatment prior to step (1).

Applicant is required to cancel the new matter in the reply to this Office Action.

Art Unit: 1746

***Claim Rejections - 35 USC § 103***

7. The rejection made in the previous Office action under 35 USC 103 is maintained for the reasons of record.

No new arguments to rebut this rejection were filed.

***Response to Arguments***

8. Applicant's arguments filed 7/31/03 have been fully considered but they are not persuasive. The applicants amended the claims and argue that the claims now are in compliance with the requirements of 35 USC 112. The examiner disagrees. See the rejection above.

***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alexander Markoff whose telephone number is 703-308-7545. The examiner can normally be reached on Flex.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Randy P Gulakowski can be reached on 703-308-4333.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-308-0651.
